

Best Selling ISO PED Wholesale Nickel Alloy Pipe Hastelloy C276 C22 B2 Steel Tube

Our Product Introduction

for more products please visit us on victory-alloy.com

Basic Information

- Place of Origin: China
- Brand Name: Victory
- Certification: CE, ROHS, ISO 9001
- Product Name: HC-276, C-22, C-4, B2, B3, N
- Model Number: 5 Kg
- Minimum Order Quantity: 10 - 99 kilograms \$35.00
- Price: 10 - 99 kilograms \$35.00
- Packaging Details: Hastelloy alloy are rolled and packed with plastic film, or in wooden boxes. Special packaging requirements can also be accommodated. OEM is also acceptable
- Delivery Time: 5-21 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 300 tons per month

Product Specification

- Product Name: Hastelloy Alloy Pipe
- Material: Ni Cr Mo
- Ni (Min): 55%
- Temperature Range: 1260~1355°C
- Resistance ($\mu\Omega\cdot m$): 1.15
- Powder Or Not: Not Powder
- Ultimate Strength (\geq MPa): 790
- Elongation (\geq %): 30%
- Electrical Density (g/m³)
Resistivity 24°C : 8.4g/cm³
- Surface: Bright, Oxided
- Size: Customized Size
- Application: Aerospace Industry, Chemical Industry, Marine Industry
- Highlight: C276 Hastelloy Alloy, B622 Hastelloy Alloy, Bright Nickel Alloy Tube

HASTELLOY ALLOY TUBE

HC-276,C-22,C-4,B2,B3,N

Customized service available

Hastelloy is a nickel-based corrosion-resistant alloy, which is mainly divided into two categories: nickel-chromium alloy and nickel-chromium-molybdenum alloy. Hastelloy has good corrosion resistance and thermal stability, and is mostly used in aviation, chemical fields, etc.

Hastelloy is composed of elements such as Ni, Cr, Mo, Fe, Si, etc. It is Ni-Mo series, Ni-Cr-Mo series and Ni-Si series corrosion-resistant and heat-resistant alloys in nickel-based alloys. Its density 9.2g/cm, melting point 1330-1380°C, magneti permeability≤1.001(°C, RT).

Hastelloy grades: Hastelloy C276, Hastelloy C22, Hastelloy C-2000, Hastelloy C-4, Hastelloy C, Hastelloy B, Hastelloy B-2, Hastelloy B-3, Hastelloy X, Hastelloy G-30, Hastelloy G-35, etc. UNS N10276, UNS N06022, UNS N06200, UNS N10665, UNS N10675, UNS N06030, UNS N06002, etc. Hastelloy seamless pipes, steel plates, round bars, forgings, flanges, H-rings, welded pipes, steel strips, straight bars, wires and supporting welding consumables, processed parts, etc.

item	HC-276	C-22	C-4	B2	B3

Application Field

Hastelloy alloy tubes are widely used in many fields

Chemical Industry

Aerospace Field

Marine Engineering

Nuclear Industry

Petrochemical Industry

Device Field

Food Industry

Solar Industry

Hastelloy alloy tubes are widely used in various fields due to their excellent corrosion resistance, high temperature strength, and good fabricability. The application areas of Hastelloy alloy tubes include but are not limited to the following:

1. Chemical industry: Hastelloy alloy tubes can be used for the production and transportation of strong acids, alkalis, and other corrosive media, as well as in chemical processing equipment such as reactors, heat exchangers, and evaporators.

2. Aerospace industry: Due to the excellent high temperature performance and corrosion resistance of Hastelloy alloy, it is widely used in aerospace applications such as jet engines and rocket components.
 3. Marine engineering: Hastelloy alloy tubes have excellent corrosion resistance to seawater, so they are widely used in offshore oil platforms, seawater desalination, and shipbuilding.
 4. Power generation industry: Hastelloy alloy tubes can be used in power generation equipment such as boilers, heat exchangers, and condensers due to their high temperature strength and corrosion resistance.
 5. Pharmaceutical industry: Hastelloy alloy tubes have good biocompatibility and can be used in pharmaceutical production equipment and clean rooms.
- In summary, Hastelloy alloy tubes have a wide range of applications in various fields such as chemical, aerospace, marine, power generation, and pharmaceutical industries due to their excellent corrosion resistance, high temperature strength, and good fabricability.

Company Profile

We are a leading alloy metal manufacturer founded in 2002, providing high-quality and high-performance alloy products and services to our customers. Our company is dedicated to becoming the industry leader in the alloy field, and we have received multiple industry certifications and awards, including the ISO9001 International Quality Management System Certificate and the SGS Certificate.

Over the past 18 years, we have focused on the resistance alloy business and continuously innovated and explored, ultimately developing new nickel-based alloy products such as chromium-nickel-iron alloy, Monel alloy, Hastelloy alloy, high-temperature alloy, and more.

Our Advantages

Our advantages can provide customers with better service

HIGH QUALITY

SUPER ELASTICITY
