

Round Rod Hastelloy C276 C22 B-2 Nickel Alloy Round Bars

Our Product Introduction

for more products please visit us on victory-alloy.com

Basic Information

- Place of Origin: China
- Brand Name: Victory
- Certification: CE, ROHS, ISO 9001
- Model Number: HC-276, C-22, C-4, B2, B3, N
- Minimum Order Quantity: 5 Kg
- Price: 5 - 499 kilograms \$40.00
- Packaging Details: Wooden case or according to your requirement . Special packaging requirements can also be accommodated. OEM is also acceptable.
- Delivery Time: 5-21 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 300 tons per month

Product Specification

- Product Name: Hastelloy Alloy Bar
- Material: Ni Cr Mo
- Ni (Min): 54%
- Resistance ($\mu\Omega\cdot m$): 1.15
- Powder Or Not: Not Powder
- Ultimate Strength ($\geq MPa$): 790
- Elongation ($\geq \%$): 30%
- Electrical Density (g/m^3)
Resistivity 24°C : 8.4g/cm3
- Hardness: 255
- Surface: Bright, Oxided
- Size: Customized Size
- Application: Aerospace Industry, Chemical Industry, Marine Industry
- Highlight: Round Rod Hastelloy C276, C22 Nickel Alloy Round Bars

Our Product Introduction

Product Description

HASTELLOY ALLOY BAR

HC-276,C-22,C-4,B2,B3,N

Customized service available

Hastelloy is a nickel-based corrosion-resistant alloy, which is mainly divided into two categories: nickel-chromium alloy and nickel-chromium-molybdenum alloy. Hastelloy has good corrosion resistance and thermal stability, and is mostly used in aviation, chemical fields, etc.

Hastelloy is composed of elements such as Ni, Cr, Mo, Fe, Si, etc. It is Ni-Mo series, Ni-Cr-Mo series and Ni-Si series corrosion-resistant and heat-resistant alloys in nickel-based alloys. Its density 9.2g/cm, melting point 1330-1380°C, magnetic permeability ≤ 1.001 (°C, RT).

Hastelloy grades: Hastelloy C276, Hastelloy C22, Hastelloy C-2000, Hastelloy C-4, Hastelloy C, Hastelloy B, Hastelloy B-2, Hastelloy B-3, Hastelloy X, Hastelloy G-30, Hastelloy G-35, etc. UNS N10276, UNS N06022, UNS N06200, UNS N10665, UNS N10675, UNS N06030, UNS N06002, etc. Hastelloy seamless pipes, steel plates, round bars, forgings, flanges, H-rings, welded pipes, steel strips, straight bars, wires and supporting welding consumables, processed parts, etc.

item	HC-276	C-22	C-4	B2	B3

Application Field

Hastelloy alloy bars are widely used in many fields

Chemical Field

Oil Field

Gas Field

Energy Field

Device Field

Automobile Manufacturing

Aerospace Field

Shipbuilding Field

Hastelloy alloy strip is a thin metal strip made of nickel, cobalt, chromium, and other metal alloys, commonly used in the following application areas:

1. Chemical processing: Hastelloy bars are used in chemical processing plants due to their excellent resistance to corrosion and high-temperature environments. They are used in applications such as reactors, heat exchangers, and piping systems.
2. Aerospace: Hastelloy bars are used in aerospace applications such as gas turbine engine components, exhaust systems, and heat exchangers due to their excellent high-temperature resistance and strength.
3. Oil and gas: Hastelloy bars are used in the oil and gas industry due to their excellent resistance to corrosion and high-temperature environments. They are used in applications such as downhole tubulars, wellhead components, and offshore platforms.
4. Power generation: Hastelloy bars are used in power generation applications such as boilers and steam generators due to their excellent resistance to high-temperature and high-pressure environments.
5. Marine: Hastelloy bars are used in marine applications due to their excellent resistance to corrosion in seawater environments. They are used in applications such as seawater cooling systems, desalination plants, and offshore oil platforms.
6. Nuclear: Hastelloy bars are used in nuclear applications due to their excellent resistance to corrosion, high-temperature environments, and radiation. They are used in applications such as nuclear reactors and fuel processing plants.

OEM Services

We can provide customized services for customers

Product Customization

Size: 8.0-200mm

We can customize hastelloy alloy bars of different size for customers.

Label Customization

We can provide label customization service for customers' products.

Company Profile

We are a leading alloy metal manufacturer founded in 2002, providing high-quality and high-performance alloy products and services to our customers. Our company is dedicated to becoming the industry leader in the alloy field, and we have received multiple industry certifications and awards, including the ISO9001 International Quality Management System Certificate and the SGS Certificate.

Over the past 18 years, we have focused on the resistance alloy business and continuously innovated and explored, ultimately developing new nickel-based alloy products such as chromium-nickel-iron alloy, Monel alloy, Hastelloy alloy, high-temperature alloy, and more.

Our Advantages

Our advantages can provide customers with better service

HIGH QUALITY

SUPER ELASTICITY

HIGH STRENGTH

BRAND EFFECT

PROFESSIONAL FACTORY

TECHNICAL SUPPORT

R&D INNOVATION SERVICES

AFTER-SALES SERVICE

ISO CERTIFICATION

EFFICIENT LOGISTICS SERVICE

Our Certifications

Our products have obtained national standard certification

Our Partners

We have established long-term cooperative relationships with many partners
