

Round Pure Silver Wire Sterling Silver Wire For Industry And DIY Jewelry

Our Product Introduction

for more products please visit us on victory-alloy.com

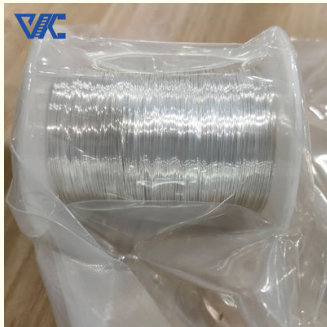

Basic Information

- Place of Origin: China
- Brand Name: Victory
- Certification: CE,ROHS,ISO 9001
- Model Number: Pure Silver Wire 9999
- Minimum Order Quantity: 5kg
- Price: Negotiable
- Packaging Details: Spool package with Carton box, Coil package with polybag
- Delivery Time: 5-21 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 300 tons per month

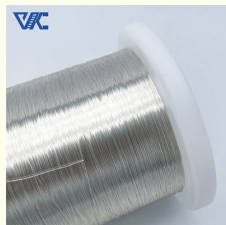

Product Specification

- Item: Pure Silver Wire 9999
- Condition: Soft
- Diameter: 0.032 Inch
- Dimensions: 0.018--10mm
- Finish: Bright
- Purity: ≥99.95
- Surface: Bright
- Application: Industry And DIY Jewelry
- Strip Width: Custom
- Shape: Wire (round Wire , Flat Wire)
- Highlight: Industry Sterling Silver Wire, DIY Jewelry Sterling Silver Wire, 99.95 Round Pure Silver Wire

Our Product Int

Product Description

Product Description:

Pure Silver Wire is a high-purity silver wire widely used in a variety of applications. It is known for its excellent electrical conductivity, excellent corrosion resistance and excellent physical properties. These are among the features and benefits of Pure Silver Wire.

First, Pure Silver Wire has extremely high electrical conductivity properties. Silver is one of the best conductive materials known, with extremely low resistance and extremely high conductivity. This means that Pure Silver Wire can provide excellent current transfer capabilities, reduce energy loss, and ensure efficient electronic device operation. Secondly, Pure Silver Wire has excellent corrosion resistance. Pure silver has good chemical stability and is highly resistant to most common corrosive substances. This allows Pure Silver Wire to perform well in long-term use in harsh environments and is less susceptible to corrosion or oxidation. Pure Silver Wire also has excellent physical properties such as high strength and good flexibility. This makes it easy to process and install, suitable for a variety of application needs. In addition, pure silver has excellent thermal conductivity properties and can effectively transfer heat energy, giving it potential in the field of thermal management.

Key Features:

High-quality pure silver wire, 999 silver
Soft and smooth texture for easy shaping and manipulation
Silver color adds a touch of elegance
High tensile strength of 650 MPa for durability
Versatile for crafting and jewelry making
Excellent electrical conductivity

In conclusion, Sterling Silver Wire is a must-have for any crafter or jewelry maker. Its purity, softness, and strength make it a valuable and versatile material for various projects. Whether you are creating intricate designs or simple pieces, this wire is sure to add a touch of elegance and durability to your creations.

Features:

Product Name: Sterling Silver Wire

Condition: Soft

Length: 10 Feet

Wire Type: Round

Dimensions: 0.018--10mm

Strip Width: Custom

Technical Parameters:

Material	Composition	Density g/cm3	Resistivity $\mu\Omega \cdot \text{cm}$	Hardness HV kg/mm3
Ag	more than 99.95	more than 10.49	less than 1.6	30--70

Item Name	high purity Silver Wires for Coating 99.99% silver Wire 99.999%
Purity	99.99%; 99.999%
Shape	Wire, According to your request
Available size	$\phi 3 \times 3\text{mm}$ $6 \times 6\text{mm}$ Customization is available
Certificates	ISO 9001:2008, SGS, The third test report
Technics	Vacuum Melting, Patented thermo-mechanical process
Application	Widely used in coating processing industries A: Solar Photovoltaic Application. B: Electronic and Semiconductor Application. C: Decoration and Coating Application. etc.

Applications:

Pure Silver Wire 9999

Are you looking for high-quality silver wire for your jewelry making or crafting projects? Look no further than our Pure Silver Wire 9999. Made from 99.99% pure silver, this wire is perfect for creating beautiful and durable pieces.

Our 999 silver wire is available in a half-hardness, making it easy to work with and shape. The smooth surface of the wire ensures a professional and polished finish to your creations.

Model Number: Pure Silver Wire 9999

Hardness: Half Hard

Shape: Smooth

Material: Sterling Silver

Finish: Bright

Color: Silver

Whether you are a professional jeweler or a crafting enthusiast, our Sterling Silver Wire is the perfect choice for all your wire needs. The bright silver finish adds a touch of elegance to any design, and the color complements all types of gemstones and beads.

So why settle for anything less than the best? Choose our Pure Silver Wire 9999 for your next project and create stunning and long-lasting pieces that will be treasured for years to come.
