

0.2mm-1.0mm Thickness Thermocouple Bare Wire Grade I/II With None Outer Jacket Material

Basic Information

- Place of Origin: China
- Brand Name: Victory
- Certification: ISO SGS
- Model Number: Thermocouple Bare Wire

Product Specification

- Highlight: Grade I/II Thermocouple Bare Wire,
0.2mm-1.0mm Thermocouple Bare Wire,
1.0mm Thickness Thermocouple Bare Wire

Product Description

Product Description:

The Thermocouple Bare Wire does not come with an outer jacket material, which makes it more flexible and easier to handle. This also makes it an ideal choice for applications where space is limited. However, it is important to note that this product is not suitable for use in harsh environments where it may be exposed to moisture or chemicals.

The S Type of the Thermocouple Bare Wire is Pt-Rh10, which is a popular choice for high temperature applications. This type of thermocouple wire is known for its accuracy, reliability, and stability. It is also resistant to oxidation and corrosion, which helps to ensure that it will last a long time.

The Thermocouple Bare Wire is an insulated electrical wire that is designed to withstand high temperatures. This makes it an ideal choice for use in industrial and laboratory settings where accurate temperature measurements are critical. It can also be used in a wide range of other applications where high temperature resistance is required.

In summary, the Thermocouple Bare Wire is a high quality, reliable, and accurate product that is ideal for use in thermocouple and temperature measurement applications. Its Grade I/II thermocouple wire ensures accurate temperature readings, while its Pt-Rh10 S Type provides stability and resistance to oxidation and corrosion. Its high temperature resistance and insulated electrical wire make it a versatile product that can be used in a wide range of applications.

Applications:

Support and Services:

The Thermocouple Bare Wire product comes with the following technical support and services:

- Expert advice on product selection and compatibility
- Troubleshooting assistance for any issues with the product
- Repair and calibration services for the product
- User manuals and installation guides for the product
- Warranty support for the product

Packing and Shipping:

Product Packaging:

Thermocouple Bare Wire

Length: 100 meters

Material: Type K

Diameter: 0.5 mm

Packaging: Spool

Shipping:

Weight: 0.5 kg

Dimensions: 20 x 20 x 10 cm

Shipping Method: Standard

Delivery Time: 5-7 business days

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Victory.

Q: What is the model number of this product?

A: The model number of this product is Thermocouple Bare Wire.

Q: Where is this product made?

A: This product is made in China.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 5.

Q: Is this product suitable for high temperature applications?

A: Yes, this product is suitable for high temperature applications as it is designed to withstand high temperatures.
