

Elevate Industrial Projects Metal Foam Strong Lightweight Versatile

Our Product Introduction

for more products please visit us on victory-alloy.com

Basic Information

- Place of Origin: China JiangSu
- Brand Name: Victory
- Certification: CE,ROHS
- Model Number: Metal Foam

Product Specification

- EINECS: 231-159-6
- Size: 500*500
- Foam Type: Open-cell
- Package: Wooden Case
- Design Style: Traditional
- Lightweight: Yes
- Application: Battery Electrode
- Product: Aluminum Foam Panel With Marble
- Highlight: **elevate industrial projects metal foam, strong lightweight metal foam, versatile metal foam**

Product Description

Product Description:

The Metal Foam product comes in a size of 500*500, which is perfect for a wide range of applications. It is a flexible polyurethane foam that can be easily molded into different shapes and sizes. This makes it a versatile material that can be used for a variety of projects. The Metal Foam product is available in an Aluminum Foam Panel with Marble design, which is perfect for those who want a stylish and modern look. The marble design adds an attractive finish to the aluminum foam panel, making it perfect for use in a variety of settings. The Metal Foam product is perfect for use in battery electrodes. Its lightweight and open-cell structure make it an ideal choice for this application. The Metal Foam product is also an excellent conductor of electricity, making it highly efficient for use in battery electrodes. Its high surface area also allows for better heat dissipation, making it perfect for use in high-performance batteries. Overall, the Metal Foam product is an excellent choice for those who want a lightweight, durable, and versatile material for their projects. Its open-cell metal foam structure, CR sealed foam, and flexible polyurethane foam make it an ideal choice for a wide range of applications.

Applications:

The Victory Metal Foam product is versatile and can be applied in various occasions and scenarios. One of its main applications is in the construction industry. The metal foam panel can be used in the construction of walls, ceilings, and floors. Its composite foam core provides excellent insulation properties, making it suitable for both interior and exterior walls. The metal foam panel is also lightweight, making it ideal for high-rise buildings where weight is a concern. Additionally, the marble finish of the panel gives it an elegant look, making it suitable for both residential and commercial buildings.

Another application of the Victory Metal Foam product is in the transportation industry. The metal foam panel can be used as a lightweight and durable material for the construction of buses, trains, and airplanes. Its composite foam core provides excellent shock absorption properties, making it ideal for the transportation of delicate goods. The metal foam panel can also be used as a sound barrier, reducing noise pollution in transportation vehicles.

The Victory Metal Foam product can also be used in the manufacturing industry. The metal foam panel can be used as a composite foam core in the production of colored foam boards. The colored foam board can be used in various manufacturing applications, such as packaging, insulation, and soundproofing.

The Victory Metal Foam product is packaged in a wooden case, ensuring that it arrives at its destination in excellent condition. Its EINECS number is 231-159-6, indicating that it is a safe and non-toxic product.

In summary, the Victory Metal Foam product is a versatile and durable material that can be used in various industries. Its composite foam core and EPDM rubber foam give it excellent insulation and shock absorption properties, making it ideal for construction, transportation, and manufacturing applications. Its elegant marble finish and traditional design style make it suitable for both residential and commercial buildings.

Support and Services:

Our Metal Foam product comes with comprehensive technical support and services to ensure that our customers get the most out of their purchase. Our team of experts is available to answer any questions and provide advice on product use and maintenance. We also offer training sessions to ensure that our customers are fully knowledgeable about the product and its capabilities. Our technical support includes troubleshooting assistance and repair services to address any issues that may arise. In addition, we provide regular updates on the latest product developments and upgrades to ensure that our customers stay up-to-date with the latest technology.

Packing and Shipping:

Product Packaging:

The metal foam product will be securely packed in a sturdy cardboard box to avoid any damages during transport. The box will be labeled with the product name, weight, and any handling instructions. The foam will be wrapped in a protective material to ensure it arrives in perfect condition.

Shipping:

We offer free shipping within the United States, and the estimated delivery time is 3-5 business days. For international shipping, additional charges may apply and the delivery time may vary depending on the destination country. We will provide a tracking number once the product has been shipped.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Victory.

Q: What is the model number of this product?

A: The model number of this product is Metal Foam.

Q: Where is this product manufactured?

A: This product is manufactured in China JiangSu.

Q: What are the dimensions of this product?

A: The dimensions of this product vary depending on the specific type and size of the metal foam. Please refer to the product specifications for more information.

Q: What are the typical applications for this product?

A: Metal foam can be used in a variety of applications, such as lightweight structural components, heat sinks, sound absorbers, and electromagnetic shielding. Its unique properties make it an attractive option for many different industries.
