

## Hastelloy Metal Plates C-276 For Corrosion Resistance In Pulp And Paper Mills

Our Product Introduction

for more products please visit us on [victory-alloy.com](http://victory-alloy.com)

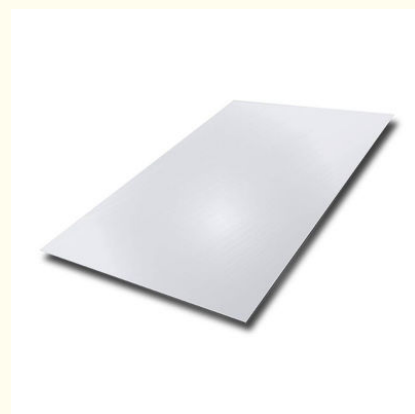

### Basic Information

- Place of Origin: China JiangSu
- Brand Name: Victory
- Model Number: Hastelloy Plate

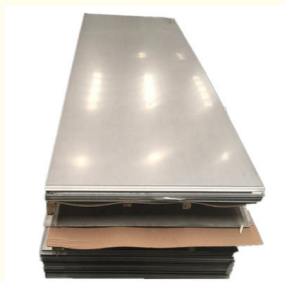

### Product Specification

- Equal Grade: UNS N10276, Hastelloy C276,
- Heat Resistance: High
- Raw Materials: NI Rem%, CR20-22.5%, MO12.5-14.5%
- Width: 1000mm - 2500mm
- Applications: Chemical Processing, Pollution Control, Flue Gas Desulfurization Systems, Waste Treatment, Pharmaceutical And Food Processing Equipment
- Melting Point: 1325-1370°C
- Surface Finish: 2B, BA, No.1, No.4, No.8, HL, 8K, Mirror Finish And So On
- Standard: ASTM B575, ASME SB575, ASTM B333, ASME SB333, ASTM B162, ASME SB162
- Highlight: **Pulp hastelloy c276 plate,**

## Product Description

### Product Description:

Our Hastelloy Plate comes in a variety of surface finishes such as 2B, BA, No.1, No.4, No.8, HL, 8K, Mirror Finish And So On. This ensures that our customers receive a product that meets their specific requirements and desired look.

The Hastelloy Material used in our plate is of equal grade and meets the high standards set by the industry. This ensures that our customers receive a product that is of the highest quality, durability and reliability.

Our Hastelloy Alloy material is available in a flat plate sheet shape, making it easy to handle and install. Additionally, it conforms to the standard ASTM B575, ASME SB575, ASTM B333, ASME SB333, ASTM B162, ASME SB162.

In conclusion, our Hastelloy Plate is the perfect choice for customers who require a high-quality, reliable and durable product that is capable of withstanding harsh and demanding environments. With its excellent corrosion resistance, equal grade, and a variety of surface finishes, our Hastelloy Material is the go-to choice for industrial applications.

### Applications:

The Victory Hastelloy Plate is a versatile product that can be used in various applications due to its excellent corrosion resistance properties. It is commonly used in the chemical processing industry, where it is used to make reactors, heat exchangers, and pipes. Additionally, the product is also used in the oil and gas industry, where it is used to make pumps, valves, and other components that require excellent corrosion resistance in harsh environments.

The Hastelloy Plate is also ideal for use in the aerospace industry, where it is used to make engine components, exhaust systems, and other components that require high strength and corrosion resistance. The Victory Hastelloy Plate is particularly useful in environments where it is exposed to high temperatures and corrosive gases.

Another application of the Victory Hastelloy Plate is in the pharmaceutical industry, where it is used to make vessels and containers for the production of drugs. The product's excellent corrosion resistance properties make it ideal for use in this industry, where the production process often involves the use of corrosive chemicals.

The Victory Hastelloy Plate is available in two grades, Hastelloy C22 and Hastelloy C276. The Hastelloy C22 grade is ideal for use in reducing environments, while the Hastelloy C276 grade offers excellent resistance to oxidizing environments. The product is made in China Jiangsu, and it is widely used in various industrial applications due to its excellent properties.

In conclusion, the Victory Hastelloy Plate is a high-quality product that is widely used in various industrial applications due to its excellent corrosion resistance properties. It is available in two grades, Hastelloy C22 and Hastelloy C276, and is made in China Jiangsu. It is ideal for use in the chemical processing, oil and gas, aerospace, and pharmaceutical industries, among others.

### Customization:

Custom branding with the Victory name

Model number customization for the Hastelloy Plate

Place of origin customization to reflect China JiangSu

Surface finish customization options including 2B, BA, No.1, No.4, No.8, HL, 8K, Mirror Finish and more

Condition customization for forging

High heat resistance customization for the Hastelloy Alloy, including Hastelloy B3 and Hastelloy C276

Excellent corrosion resistance customization in both reducing and oxidizing environments

Always in good stock customization

### Support and Services:

Hastelloy Plate is a high-performance alloy that offers superior corrosion resistance in harsh environments. At our company, we provide technical support and services to ensure that our customers are able to fully utilize the benefits of this product.

Our technical team is available to answer any questions you may have about the material properties, fabrication, and welding of Hastelloy Plate. We can also provide guidance on the appropriate applications for this product and help you select the right size and thickness for your needs.

In addition, we offer a range of services to ensure that your Hastelloy Plate is fabricated to your exact specifications. This includes cutting, shearing, bending, and welding services. We also offer testing services to ensure that your product meets the highest quality standards.

Overall, our goal is to provide the highest level of technical support and service to ensure that our customers are able to achieve optimal performance and longevity with their Hastelloy Plate.

### Packing and Shipping:

Product Packaging:

The Hastelloy Plate product will be securely wrapped in bubble wrap to prevent any damage during transit.

The wrapped product will be placed in a sturdy cardboard box.

The box will be sealed with strong packing tape.

The box will be labeled with the product information and shipping details.

Shipping:

The product will be shipped via the selected shipping method at checkout.

The product will be shipped within 1-2 business days after the order is placed.

The estimated delivery time will depend on the shipping method and destination.

The customer will receive a tracking number once the product has been shipped.

## FAQ:

What is the brand name of this product?

Brand Name: **Victory**

What is the model number of this product?

Model Number: **Hastelloy Plate**

Where is this product made?

Place of Origin: **China JiangSu**

What are the dimensions of this product?

The dimensions of the Hastelloy Plate vary depending on the size you choose. Please refer to the specifications sheet for more information.

What are the applications of Hastelloy Plate?

Hastelloy Plate is widely used in industries such as chemical processing, petrochemicals, power generation, pharmaceuticals, and more.

It is an ideal material for applications that require resistance to corrosion, heat, and stress.
