

Ferritic Alloy FeCrAl Strip In Heating Elements

Our Product Introduction

for more products please visit us on victory-alloy.com

Basic Information

- Place of Origin: China JiangSu
- Brand Name: Victory
- Model Number: FeCrAl Alloy

Product Specification

- Temperature Range: Up To 1400°C
- Elongation: >25%
- Application: Heating Elements, Industrial Furnaces, Electrical Appliances, Etc.
- Supply State: Wire Or Spring as Customer Requirements
- Thermal Conductivity: 11.2 W/m·K
- Material: FeCrAl
- Thermal Expansion: 8.2-9.2 $\mu\text{m/mK}$
- Conductor Material: Resistant Wire
- Highlight: **Heating Elements FeCrAl Strip, Ferritic Alloy FeCrAl Strip**

Product Description

Product Description:

Made from a ferritic alloy, our iron-chromium-aluminum strip is designed to resist oxidation and corrosion, making it perfect for use in high-temperature environments. The strip shape allows for easy installation and customization to fit your specific needs. As a resistant wire conductor material, FeCrAl strip is ideal for use in heating elements, including electric ovens, water heaters, and heating pads. Its high melting point and low thermal expansion coefficient make it a reliable choice for a variety of applications. With our non-powder FeCrAl strip product, you can trust that you are getting a quality material that will perform well in even the toughest conditions. So why wait? Contact us today to learn more about our ferritic iron-chromium-aluminum strip and how it can benefit your business.

Support and Services:

The FeCrAl strip product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experts is available to provide assistance with product selection, installation, and maintenance. We also offer custom design and fabrication services to meet specific application requirements. Our technical support includes:

Product selection guidance based on application requirements

Recommendations for optimal installation and use

Technical consultation for troubleshooting and problem-solving

Custom design and fabrication services

On-site technical support and training

Regular maintenance and repair services

Our commitment to quality extends beyond the initial purchase. We offer ongoing technical support and services to ensure that our FeCrAl strip product continues to meet your needs and expectations.

Packing and Shipping:

Product Packaging:

The FeCrAl Strip product will be packaged in a sturdy cardboard box to ensure safe transportation and delivery. Each box will contain the specified quantity of strips, which will be wrapped in protective material to prevent damage during transit. The box will be clearly labeled with the product name, dimensions, and quantity.

Shipping:

The FeCrAl Strip product will be shipped via a reputable courier service to ensure timely and secure delivery. Shipping options and costs will be provided at checkout. Please ensure that the shipping address provided is accurate and up-to-date to avoid any delays or issues with delivery.

FAQ:

A: The brand name of the FeCrAl Strip product is Victory.

Q: What is the model number of the FeCrAl Strip product?

A: The model number of the FeCrAl Strip product is FeCrAl Alloy.

Q: Where is the FeCrAl Strip product made?

A: The FeCrAl Strip product is made in China JiangSu.

Q: What are the dimensions of the FeCrAl Strip product?

A: The dimensions of the FeCrAl Strip product vary depending on the specific model. Please refer to the product specifications for more information.

Q: What is the composition of the FeCrAl Strip product?

A: The FeCrAl Strip product is composed of iron, chromium, and aluminum.
