

## Argon Shielding Gas Nickel Welding Wire 0.8mm Bright Surface Finish

Our Product Introduction

for more products please visit us on [victory-alloy.com](http://victory-alloy.com)

### Basic Information

- Place of Origin: China
- Brand Name: Victory
- Model Number: Nickel Welding Wire

### Product Specification

- Diameter: 0.8mm
- Criterion: Aws A5.14, ASME 9
- Tensile Strength: 600 MPa
- Surface Finish: Bright
- Application: Welding Of Nickel Alloys
- Melting Point: 1455°C
- Brinell Hardness Hb: ≤220
- Elongation: 40%
- Highlight: Argon Shielding Gas Nickel Welding Wire,  
0.8mm Nickel Welding Wire,  
Bright Surface Finish Nickel Welding Wire

## Product Description

### Product Description:

The Nickel Welding Wire is an alloy welding wire that is perfect for your welding needs. This mig welding wire comes in a spool packaging type which is convenient to use. It weighs 1kg and has a diameter of 0.8mm, making it a durable and long-lasting option for your welding projects.

The Nickel Welding Wire is a solid wire type that is designed to meet the strict criteria of Aws A5.14 and ASME 9. This means that you can rely on its quality and performance. It is also known for its excellent welding properties, which makes it a popular choice for welding professionals.

Whether you are working on a small project or a large-scale welding job, the Nickel Welding Wire is a reliable and cost-effective option. It is ideal for welding nickel alloys, which makes it suitable for a wide range of applications.

The Nickel Welding Wire is easy to use and can be fed through the welding torch smoothly. Its smooth feeding properties reduce the risk of jamming and ensures a consistent welding process.

Overall, if you are looking for a high-quality welding wire that delivers consistent performance and excellent welding properties, the Nickel Welding Wire is the perfect choice. Order yours today and experience the difference!

### Applications:

The Victory Nickel Welding Wire is an ideal choice for welding applications that require the use of Argon shielding gas. The welding wire is compatible with Argon shielding gas, which helps to reduce the risk of oxidation and other welding defects. This makes it a popular choice for welding applications that require a high level of precision and accuracy.

The Victory Nickel Welding Wire is designed to meet international welding standards, including Aws A5.14 and ASME 9. This ensures that the welding wire is of the highest quality and meets the required safety standards.

The Victory Nickel Welding Wire is manufactured in China, which ensures that it is made using the highest quality materials and manufacturing processes. This makes it a reliable and long-lasting welding wire that is suitable for various welding applications.

This tig welding wire is available in a weight of 1kg, which makes it easy to handle and use. This makes it a convenient choice for welding applications that require a lightweight and easy-to-use welding wire.

Overall, the Victory Nickel Welding Wire is a high-quality and reliable welding wire that is suitable for various welding applications.

Whether you are a professional welder or a DIY enthusiast, this nickel weld wire is an ideal choice for your welding needs.

### Support and Services:

Our Nickel Welding Wire product is designed to provide excellent corrosion resistance and high-temperature strength for welding applications. We offer technical support and services to ensure that our customers receive the best results possible from our product. Our experts are available to provide guidance on welding techniques, troubleshooting, and product specifications. Additionally, we offer on-site consultations and training to help customers optimize their welding processes and improve productivity. Our commitment to quality extends to our customer service, and we are dedicated to providing timely and efficient support to meet the needs of our customers.

### Packing and Shipping:

Product Packaging:

Spool weight: 1kg or 5kg

Spool diameter: 300mm

Spool inner hole diameter: 56mm

Spool width: 100mm

Each spool is sealed in a plastic bag and placed in a cardboard box for added protection during shipment.

Shipping:

Shipping is available worldwide.

Orders are typically shipped within 2 business days.

We offer various shipping options to meet your needs and budget.

Tracking information will be provided once your order has shipped.

### FAQ:

**Q: What is the brand name of this welding wire?**

A: The brand name of this welding wire is Victory.

**Q: What is the model number of this welding wire?**

A: The model number of this welding wire is Nickel Welding Wire.

**Q: Where is this welding wire manufactured?**

A: This welding wire is manufactured in China.

**Q: What is the diameter of this welding wire?**

A: The diameter of this welding wire varies depending on the specific product. Please refer to the product specifications for more information.

**Q: What materials can be welded using this welding wire?**

A: This welding wire is specifically designed for nickel alloys and can be used to weld materials such as nickel 200, 201, and alloy 600.
